OC 100 JD BH

OC 100 MARATHON CLUB

Founding Declaration

One Family • One Heart • One Life • One Hundred Marathons

1. Our Origin: A Seed Across Time

It all began with a scene from my childhood — the final sprint in 'The Lonely Runner.' In that moment, an inexplicable force surged through me, planting the seed of running a marathon. At first, I ran to become stronger on the soccer field. But in 2009, I met an 89-year-old man who ran 20 kilometers every single day, and I was profoundly shaken — a marathon is not a showcase of fitness, but a reverence for the very limits of life.

2. Our Journey: Passing the Torch to 100

From my debut marathon in 2009 — 4 hours and 1 minute — to 2026, I have completed 35 marathons. Sixty-five remain on the journey to one hundred. This is far more than one man's numbers game; it is the gene I am determined to pass on to my children: joy faces the sun, forever straight ahead.

3. Our Philosophy: A Trinity of Life

1. Legacy and Values: We pursue more than medals — we strive to implant 'optimism and resilience' into the souls of the next generation.

2. Science and Foundation: We believe in scientific, systematic training — the only road to the finish line, and our profound respect for the body.

3. Love and Resonance: This is a long march of loving ourselves, our families, and our communities. Through the act of surpassing ourselves, we inspire everyone around us.

4. Our Belief

Most of us are perfectly ordinary — yet we can choose to be better than we were yesterday. The change may be too small to perceive, but we will surely embrace every fold and every straight line with love, just like the bottlenecks in training and the detours on the way to our goals — that is growth and resonance; may we all have a Seven-Colour Heart Bridge of our own.

Joy Faces the Sun, Forever Straight Ahead!
